STEAM HEAT

by Weil-McLain

In cooperation with Weil-McLain's Hydronics Education and Training (H.E.A.T.), we are pleased to offer these Technical Seminars on "STEAM HEAT".

Learn the basic facts of the correct application, understanding and the right approach to trouble-free steam heating and boiler replacement.

These seminars will be utilizing the Weil-McLain Training Trailer which features a glass piped boiler for live-firing and also the PPMCSA Training Center's glass piped steam boiler.

Seminars will offer both classroom instruction and visual training to all technicians. The program will be interesting and informative, well worth the time and effort involved. Be among the "know-how" technicians with the latest knowledge in steam heating.

**LIMITED TO 24 REGISTRANTS
FOR EACH WORKSHOP**
