

# EASY-UP MANIFOLD KIT

# Evergreen<sup>®</sup>

## Saves Time

Ready to install design reduces average single boiler installation time by two hours or more

## Saves Money

Less than the cost of all components, plus assembly time including layout, measuring, cutting, soldering, etc.

## Easy Installation

A few quick connections while ensuring proper flow through the boiler

## Eliminates Piping Errors

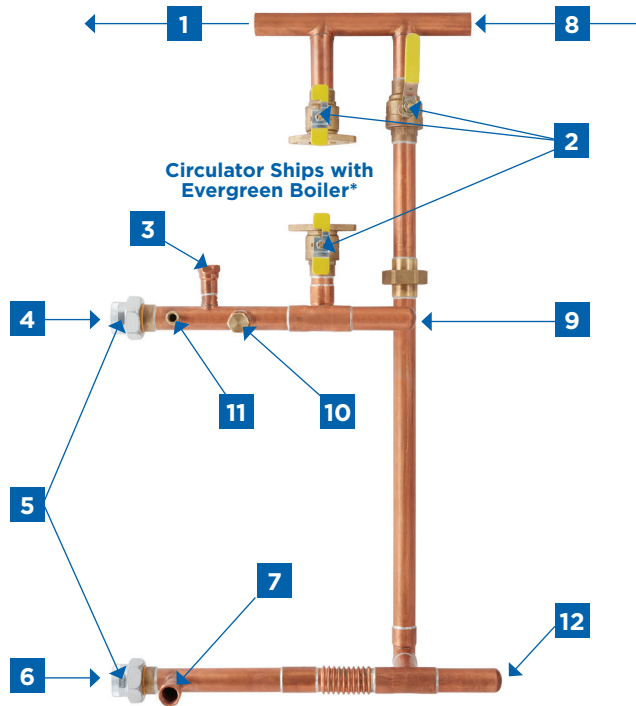

Helps ensure correct piping strategy by incorporating the primary/secondary piping requirements

## Provides a Professional Appearance

Neat joints, top quality components, designed for a precise and truly aligned installation

## Simple System Servicing

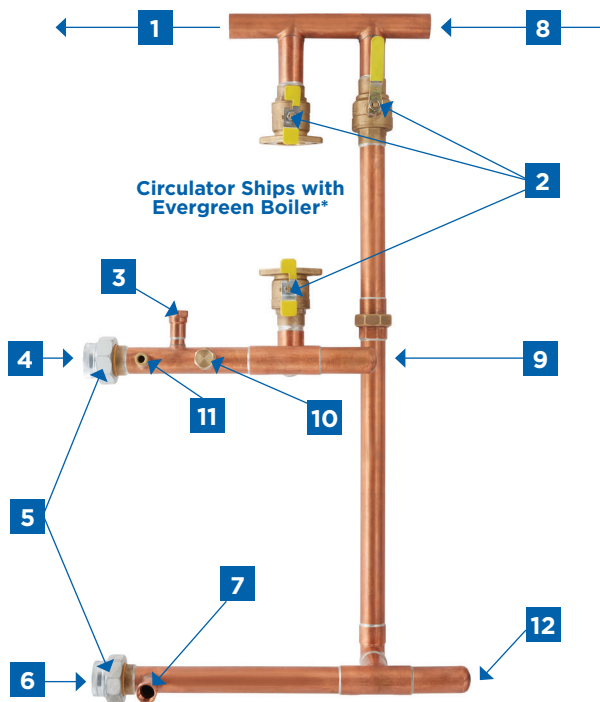

Manifold shut off valves provide quick isolation of the boiler and circulator from system piping

## 1-1/4 inch Easy-Up Manifold For 70-220 Size Evergreen Boilers

- |                         |  |
|-------------------------|--|
| 1. System Supply        | 9. Indirect Water Heater Supply (use tubing cutter, if desired)  |
| 2. Shut-off Valves      |  |
| 3. Safety Relief Valve* | 10. Low Water Cut-Off*   |
| 4. Boiler Supply        | 11. Temperature/Pressure Gauge*                                  |
| 5. Dielectric Unions    | 12. Indirect Water Heater Return (use tubing cutter, if desired) |
| 6. Boiler Return        |  |
| 7. Drain Valve*         |  |
| 8. System Return        |  |

\* Component included with boiler

## 1-1/2 inch Easy-Up Manifold For 299-399 Size Evergreen Boilers

- |                         |  |
|-------------------------|--|
| 1. System Supply        | 9. Indirect Water Heater Supply (use tubing cutter, if desired)  |
| 2. Shut-off Valves      |  |
| 3. Safety Relief Valve* | 10. Low Water Cut-Off*   |
| 4. Boiler Supply        | 11. Temperature/Pressure Gauge*                                  |
| 5. Dielectric Unions    | 12. Indirect Water Heater Return (use tubing cutter, if desired) |
| 6. Boiler Return        |  |
| 7. Drain Valve*         |  |
| 8. System Return        |  |

\* Component included with boiler

### Evergreen Manifold Part Numbers for Ordering:

#383-900-125 for boiler sizes 70-220  
#383-900-126 for boiler sizes 299-399

### Evergreen kits that are available to make installation/maintenance even easier:

Condensate Neutralizer Kit #383-500-631  
2" PVC Concentric Vent Kit (70) #383-700-167  
3" PVC Concentric Vent Kit (70-220) #383-500-350  
4" PVC Concentric Vent Kit (220-399) #383-900-075  
Parts Kit (70-155) #383-900-161  
Parts Kit (220-399) #383-900-162
