

Low NOx Certified – Evergreen, WM97+ and ECO Gas Boilers

To: Distributors, Sales Representatives, Agents and Contractors

Weil-McLain's Evergreen (sizes 70-155), WM97+ and ECO gas boilers now join the Ultra, AquaBalance, Evergreen (sizes 220-399) and SlimFit boilers on the South Coast Air Quality Management District's (SCAQMD) listing of certified boilers that meet RULE 1146.2 – Emissions of Oxides of Nitrogen. Also, any Evergreen boiler, or current Series 2 WM97+ and ECO boilers already in the field, are certified.

With NOx emissions levels of less than or equal to 20 parts per million (ppm), Weil-McLain's family of condensing gas boilers are among the industry's cleanest operating units on the market.

The updated SCAQMD listing will be posted to their site in the next few weeks. If you have any questions regarding this certification, please call our Weil-McLain Technical Services Department at 1-800-654-2109 (option 2), or email wmtechnicalservices@weil-mclain.com
