

## 70 Size Only of WM97+ and ECO Boilers Discontinued in 90 Days

Weil-McLain is discontinuing the 70 MBH input size of the WM97+ and ECO gas water boilers in 90 days. Service parts will continue to be available. Both the 110 MBH and 155 MBH sizes of the WM97+ and ECO models are unaffected, and will continue to be available.

DISCONTINUED 70 SIZE ONLY	
Model	Part #
WM97+ 70	383-700-006
ECO 70	383-800-003

### Alternatives:

Weil-McLain has a wide selection of product alternatives to choose from for the 70 MBH size. Our award winning **Evergreen 70** is a direct replacement. Other alternatives include the AquaBalance 80, and the Ultra 80.

Also know that the most popular 110 MBH size of the WM97+ and ECO boilers feature a *5 to 1* turndown ratio. This means that the boiler can automatically modulate and supply heat at a lower firing rate, exactly matching the demand while saving energy.

We will accept orders for the 70 MBH size of WM97+ and ECO gas boilers until the **end of July**. Please plan accordingly.

And as always, thank you for your continued support of Weil-McLain products and services.
