
TO: All Weil-McLain Distributors and Agents
FROM: Scott Schreeg, Commercial Product Manager
SUBJECT: **88 Series 2 Boiler – Available March 3, 2008**

The Model 88 boiler has been upgraded by you, thanks for the great feedback!

Product Highlights:

- Thermal efficiencies of 85.6%
- Modular jacket with 3" insulation
- Side panels that lift off without tools for easy servicing
- Solid steel 1/4" cleanout plates and double woven gaskets are reusable, cleaning after cleaning
- Color-coded HXT bars optimize heat transfer which maximizes thermal efficiencies
- Secondary LWCO tapping on front section
- Multiple burner offerings through Weil-McLain including: Beckett, Carlin, Power Flame, Riello and Webster*
- EZ-Temp control standard on water boilers with three configurations:
 - ✓ Water temperature control with manual reset high limit for On/Off and Low/High/Off
 - ✓ Water temperature control with manual reset high limit and step control for Low/High/Off
 - ✓ Water temperature control with manual reset high limit and proportional control for full modulation

Distributor Highlights:

- **Available for shipment March 3, 2008**
- One model to stock that includes all the upgrades listed above
- ALL iron is backwards compatible – **only need to stock Series 2 iron**
- New robust jacket and jacket packaging to avoid damage, all the way to the jobsite
- Introductory pricing will be available
