FROM: Mike Boyd – Product Marketing Manager
SUBJECT: Exhaust Muffler Kit Available for CGs & CGi Gas Boilers

Weil-McLain offers CGs and CGi optional exhaust muffler kits for applications when a lower decibel level is desired outside of a building.

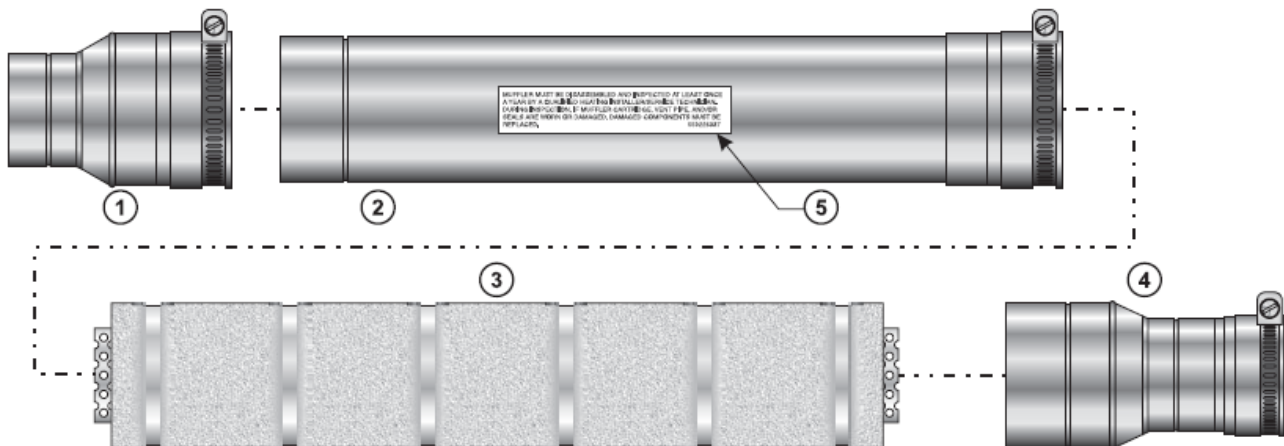

The amount of noise level reduction at the vent outlet will depend upon the boiler size, the vent length and environmental conditions, but will typically reduce exhaust noise by approximately 15 decibels.

The exhaust muffler can only be installed vertically or a maximum of 45° diagonally, and is available for Z-Vent and Fas-N-Seal vent systems only.

Z-Vent Exhaust Muffler Kit W-M Part # 381-356-575, Trade Price \$255
Fas-N-Seal Exhaust Muffler Kit W-M Part # 381-356-576, Trade Price \$410

CGs/CGi Exhaust Muffler Assembly – DO NOT Mix Vent Components from Different Manufacturers

Item	Description	Components for Z-Vent vents (Kit part number 381-356-575)		Components for Fas-N-Seal vents (Kit part number 381-356-576)	
		Z-Vent part number	W-M part number	Fas-N-Seal part number	W-M part number
1	3" x 5" tapered increaser	2SVS10305	452-800-656	FS0305TI	452-800-658
2	5" x 18" vent pipe	2SVEPWC0501.5	560-917-101	FSVL1805	560-917-102
3	Muffler cartridge (5" x 23")	N/A	452-800-670	N/A	452-800-670
