

## EASY-UP MANIFOLD KIT

# EVERGREEN<sup>®</sup> PRO

Fast, cost-effective, and error-free boiler installation

### SAVES TIME

Ready to install design reduces average single boiler installation time by two hours or more

### SAVES MONEY

Less than the cost of all components, plus assembly time including layout, measuring, cutting, soldering, etc.

### EASY INSTALLATION

A few quick connections while ensuring proper flow through the boiler

### ELIMINATES PIPING ERRORS

Helps ensure correct piping strategy by incorporating the primary/secondary piping requirements

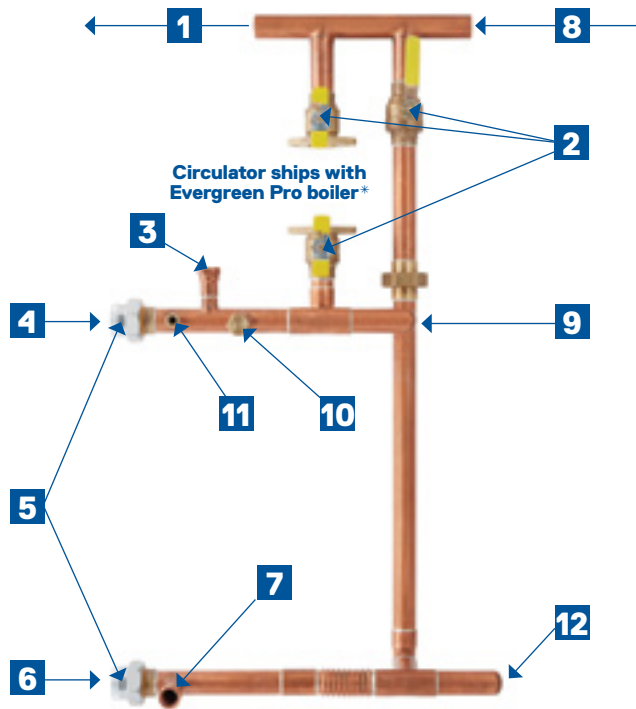

### PROVIDES A PROFESSIONAL APPEARANCE

Neat joints, top quality components, designed for a precise and truly aligned installation

### SIMPLE SYSTEM SERVICING

Manifold shut off valves provide quick isolation of the boiler and circulator from system piping

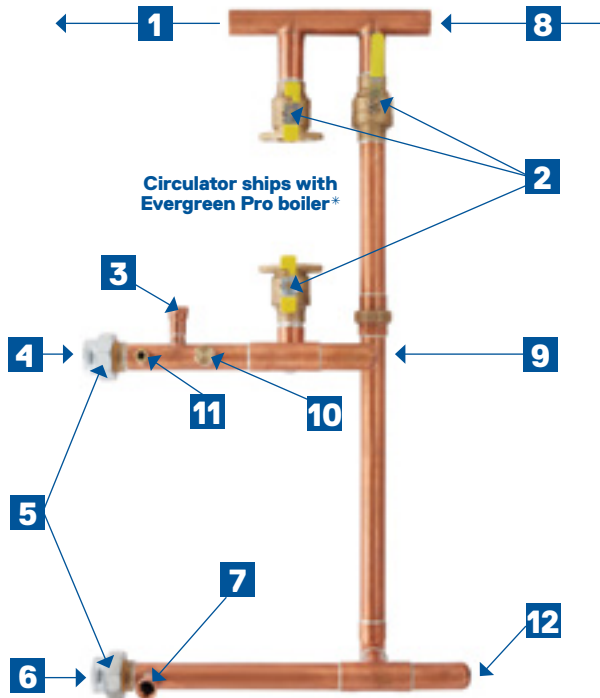

## 1 1/4 inch Easy-Up Manifold

For boiler sizes 110-220

- |                         |   |
|-------------------------|---|
| 1. System supply        | 9. Indirect water heater supply<br>(use tubing cutter, if desired)  |
| 2. Shut-off valves      | 10. Low water cut-off*  |
| 3. Safety relief valve* | 11. Temperature/pressure gauge*                                     |
| 4. Boiler supply        | 12. Indirect water heater return<br>(use tubing cutter, if desired) |
| 5. Dielectric unions    |   |
| 6. Boiler return        |   |
| 7. Drain valve*         |   |
| 8. System return        |   |

\*Component included with boiler

## 1 1/2 inch Easy-Up Manifold

For boiler sizes 299-399

- |                         |   |
|-------------------------|---|
| 1. System supply        | 9. Indirect water heater supply<br>(use tubing cutter, if desired)  |
| 2. Shut-off valves      | 10. Low water cut-off*  |
| 3. Safety relief valve* | 11. Temperature/pressure gauge*                                     |
| 4. Boiler supply        | 12. Indirect water heater return<br>(use tubing cutter, if desired) |
| 5. Dielectric unions    |   |
| 6. Boiler return        |   |
| 7. Drain valve*         |   |
| 8. System return        |   |

\*Component included with boiler

### Evergreen Pro manifold part numbers for ordering:

#383-900-125 for boiler sizes 110-220  
#383-900-126 for boiler sizes 299-399

### Evergreen Pro kits that are available to make installation/maintenance even easier:

3" PVC Concentric Vent Kit (110-220) #383-500-350  
4" PVC Concentric Vent Kit (220-399) #383-900-075
