New Series 2 AquaBalance Boilers - Now 95% Efficient!

Just when you thought the AquaBalance line of heat only and combi boilers couldn't get any better, we raised the bar! All sizes and versions of our new AquaBalance Series 2 boilers have an efficiency rating of 95% - qualifying for the ENERGY STAR® "Most Efficient" designation. We brought heat and hot water into perfect balance - where efficiency, ease and value blend into one.

Series 2 boilers will start shipping when they become available from our Eden assembly facility in September.

The chart below identifies all the new AquaBalance Series 2 part numbers and trade prices.

AquaBalance has a winning combination of efficiency, performance, design, venting options and ease of installation & maintenance...all in an elegant space-saving package with a very affordable price.

While other manufacturers may sacrifice true real-world performance in an effort to promote certain claims, our certified boilers have set the industry standard for reliability, comfort and solid operation.

Don't miss out on the perfect balance of heat and hot water; get ready

to stock up with AquaBalance.

And as always, thank you for your continued support of Weil-McLain products and services.
