

SlimFit 550-750 Transition to New Color

Commercial Boiler Channel Partners,

Weil-McLain is excited to announce the production transition of the SlimFit 550 & 750 models to a refreshed color scheme and product family enhancements which include:

- Move from aluminum to polypropylene internal exhaust flue
- Design change to a near-boiler mount temperature/pressure gauge

Model part numbers have not changed. The beginning CP numbers follow:

- CP7910518 for SlimFit 550 models
- CP7910517 for SlimFit 750 models

SlimFit 1000-2000 models are targeted for the slate gray color transition within the next couple months. Find the following links to refreshed sales collateral and support detail.

Updated literature will be on the portal shortly.

As always,

Thank you for your support.
