

GV90+ Transition to New Color

Dear Valued Distributor,

As a follow-up communication to an earlier bulletin (MB2107) sent on 4/1/21, Weil-McLain started producing GV90+ boilers in the new gray colors. **The beginning CP number is CP7925825.**

Minor changes include:

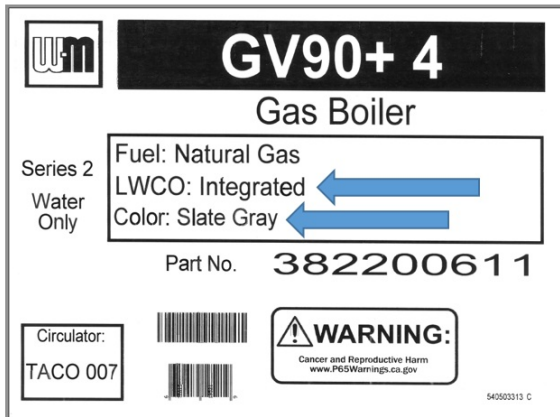

- Jacket color - from tan to gray, to align with the new color scheme of the product portfolio (consistent with CG, GO, Evergreen Pro, SVF).
- The addition of a built-in low water cut off functionality in the boiler control, similar to the gray CGa, CGi and existing blue Series 6 EG gas water boilers.
- Shipping carton label graphics (see below).

Everything else remains the same...the same boiler series and part numbers.

Click on link below to view the updated GV90+ brochure.

[GV90+ Brochure](#)

Since the boiler part numbers will remain the same, we added visual markings to the GV90+ shipping carton label, highlighting the new gray color and low water cut off features.

As always, thank you for your continued support of Weil-McLain products and services.
