

Stock Up Now for Heat Season on Select Weil-McLain Boilers

Dear Weil-McLain Partners,

Due to the extenuating circumstances around COVID-19, we are presently in a backlog position on a number of our products. We feel it would be disingenuous to offer a *full* fall buy-up as we may not be able to meet typical delivery expectations. Based on that, we are limiting our program to product lines we expect we can deliver in normal lead-times based on information we have today.

This season's Buy Up will include the following products:

AquaBalance: 3% discount*

ECO Tec: 3% discount*

*A minimum of 25 units is required to receive the discount. Can be a mix of ECO Tec and AquaBalance boilers to reach the 25 unit minimum.

The AquaBalance and ECO Tec boilers can be provided within our normal delivery times, but will be delivered on a first come, first serve basis.

This fall program starts on **8/20/21**, and ends at the close of business on **9/03/21**.
