

Program Launch: 2023 DOE-Compliant 94 Steam Series 4

As the North American market leader for commercial cast iron boiler solutions, Weil-McLain proudly announces the formal market launch of the new 94 Steam Series 4 design, 1494-2594 models (4,550 – 8,400 MBH).

2023 DOE-compliant, these powerful boilers have been updated to higher efficiency performance while carrying forward the 94 family legacy of ease of installation and service, reliability and service-life longevity.

Visit the Weil-McLain website for access to the full complement of sales collateral. Additional sales support and training along with sales channel pricing is available through your local Weil-McLain manufacturer rep or regional sales person.

As always, thank you for your continued support of the Weil-McLain commercial boiler portfolio.
