

DOE COMMERCIAL PACKAGE BOILER RULING REVERSAL WEIL-McLAIN PRODUCT PORTFOLIO STRATEGY

Dear Valued Commercial Boiler Channel Partner,

With the July 7th ruling reversal of commercial packaged boiler regulation (10 CFR 431.87.) and corresponding no rebuttal position of the U.S. Department of Energy, Weil-McLain announces the restructure of its commercial cast iron portfolio.

Effective with this notice, Weil-McLain announces order submittal readiness for its expanded commercial boiler portfolio via the following table and revised TPS 64 Pricing Addendum (link below). We've also used this opportunity to combine the full line of SVF commercial high-efficiency program launches pricing from earlier this year into this consolidated trade pricing addendum.

Please contact your local Weil-McLain sales representative with questions or additional detail and as always, thank you for supporting Weil-McLain commercial boiler sales in your regions.
