

**TO:** All Weil-McLain Distributors and Agents  
**FROM:** Mike Boyd – Product Marketing Manager  
**SUBJECT:** **New & Improved Residential Boiler Packaging for CG Family**

At Weil-McLain, we constantly strive for continuous improvement to enhance customer satisfaction. Last month we phased in new packaging for our premier Ultra Gas Series 3-UE boiler, now new packaging for the CGa, CGi, CGs and CGt residential gas boilers is phasing in and starting to ship.

Packaging benefits include:

- ✓ **Ease of handling** – pallet now has 4-way access
- ✓ **Durability** – rigorously tested and approved by the International Safe Transit Association (ISTA)
- ✓ **Staging enhancement** – ability to stack 4 units high in warehouse
- ✓ **Easy access** – unpacking made easier by simply cutting plastic straps
- ✓ **Easy model identification** – large, bold font size used on bright white labels - no glue marks!
- ✓ **Environmentally friendly** – our corrugated container is 100% recyclable
- ✓ **Better containment** – no chance of components falling out during transit
- ✓ **More complete for CGa 7** – draft hood now travels inside the CGa-7 boiler carton *(see page 2)\**

**DATE:** May 28, 2010**SUBJECT:** New & Improved Residential Boiler Packaging for CG Family**\*NEW CGa-7 PART NUMBERS****Draft hood now packed inside the new CGa-7 boiler carton****No need to order "Top Level 113-071-XXX" part number, or stock separate boiler & draft hood components**
