-- COMPLETE LISTING OF PRODUCTS, PART NUMBERS & PRICING ON REVERSE SIDE OF PAGE --

Weil-McLain is proud to be the exclusive North American distributor of many Sentinel water treatment products. Sentinel's protection products have been helping to ensure the longevity and energy efficiency of European hydronic heating systems for almost twenty five years, providing protection for over 15 million heating systems over that time. Their highly engineered blends address all requirements for cleaning, freeze and corrosion protection of all metals commonly found in hydronic heating systems – steel, copper, brass and aluminum – as well as providing effective scale inhibition. They are designed to be safe with all system components and have no reported issues with heating system component operation or compatibility – and overdosing is not an issue. When correctly applied and maintained, they provide complete protection for the lifetime of the system.

When installing a boiler, it's important to clean and flush the entire system first.

**For a New System – Use X300 New System Cleaner**

- ✓ Flushes out corrosive flux residues and installation debris, for systems up to 6 months old

**For an Existing System – Use X400 System Restorer**

- ✓ Eliminates built up sludge & restores circulation in partially blocked systems

**For All Systems – Use X100 Inhibitor**

- ✓ Protects the entire system against scale, corrosion and bacteria growth while maximizing efficiency

**For Systems Desiring Freeze Protection – Use X500 Inhibited Antifreeze**

- ✓ All the benefits of X100, plus freeze protection

**For an Existing System – Use X200 Noise Reducer**

- ✓ Eliminates local boiling hotspots on heat transfer surfaces & regarded as an X100 “booster” for hard water areas

Please view the enclosed Sentinel “FACTS” pamphlet for additional benefits.

Description	WM Item #	Weil-McLain Trade Price	Typical # Gallons of System Water Treated
<b>X100 Sentinel Inhibitor Concentrate</b> (275 mL Tube)	592-900-002	\$ 35	25
<b>X100 Sentinel Inhibitor</b> (1 Gallon)	592-900-025	\$ 120	100
<b>X100 Sentinel Inhibitor</b> (5 Gallons)	592-900-016	\$ 550	500
<b>X100 Sentinel Inhibitor</b> (55 Gallons)	592-900-017	\$ 5,500	5,500
<b>X200 Sentinel Noise Reducer Concentrate</b> (275 mL Tube)	592-900-007	\$ 35	25
<b>X200 Sentinel Noise Reducer</b> (1 Gallon)	592-900-026	\$ 80	100
<b>X200 Sentinel Noise Reducer</b> (5 Gallons)	592-900-018	\$ 370	500
<b>X300 Sentinel New System Cleaner</b> (1 Gallon)	592-900-027	\$ 110	100
<b>X300 Sentinel New System Cleaner</b> (5 Gallons)	592-900-020	\$ 490	500
<b>X300 Sentinel New System Cleaner</b> (55 Gallons)	592-900-021	\$ 5,000	5,500
<b>X400 Sentinel System Restorer Concentrate</b> (275 mL Tube)	592-900-003	\$ 38	25
<b>X400 Sentinel System Restorer</b> (1 Gallon)	592-900-028	\$ 110	100
<b>X400 Sentinel System Restorer</b> (5 Gallons)	592-900-022	\$ 490	500
<b>X400 Sentinel System Restorer</b> (55 Gallons)	592-900-023	\$ 5,100	5,500
<b>X500 Sentinel Anti-Freeze</b> (1 Gallon )	592-900-029	\$ 54	Based upon desired level of protection 20-50%
<b>X500 Sentinel Anti-Freeze</b> (5 Gallons)	592-900-006	\$ 207	
<b>X500 Sentinel Anti-Freeze</b> (55 Gallons)	592-900-024	\$ 1,700	
<b>Point of Sale Display Box</b>			
<b>X100 Concentrate - Box of 12 Concentrate Tubes</b> (275 mL Tube)	592-900-012	\$ 342	
<b>X200 Concentrate - Box of 12 Concentrate Tubes</b> (275 mL Tube)	592-900-013	\$ 342	
<b>X400 Concentrate - Box of 12 Concentrate Tubes</b> (275 mL Tube)	592-900-014	\$ 352	
<b>X100 Test Kit</b>			
<b>X100 Quick Test Kit</b>	592-900-005	\$ 5	
<b>Concentrate Injection Kit</b>			
<b>Water Treatment Injection Kit (for Concentrate Tube)</b>	383-600-082	\$ 5	
<b>System Flushing Equipment</b>			
<b>Jetflush Survey Kit</b>	592-900-030	\$ 370	
<b>Jetflush 40</b> (capable to flush 25 radiators, 2 to 3 story building max)	592-900-031	\$ 3,200	
<b>Jetflush 90</b> (capable to flush 40 radiators, 3 story building max)	592-900-032	\$ 3,600	

Flexible white tubing not included with concentrate injection kit – tubing supplied with **ALL** Concentrate Tubes.

Enclosures (available for ordering):

(1) Sentinel FACTS Pamphlet (Form 010912)

(1) Weil-McLain and Sentinel Sales Flyer (C-1122)

#### Jetflush 40

Standard Equipment:

Hoses, handle, wheels

.45HP 110v electric motor

10.3 gallon tank

37.5 lbs., approx. 15"x17"x27"

#### Jetflush 90

Standard Equipment:

Hoses, handle, wheels

.75HP 110v electric motor

15 gallon tank

50 lbs., approx. 15"x23"x35"
