SUBJECT: **New Higher Efficiency Ratings on WGO & WTGO Gold Oil Boilers**

THE INDUSTRY'S GOLD STANDARD OF RESIDENTIAL OIL BOILERS JUST GOT BETTER!

Our WGO and WTGO water boilers now have dual firing rate capability. The boilers ship at a standard rate, but offer load-matching flexibility with a simple burner adjustment and nozzle change...plus energy efficiencies that now reach up to 86.4% AFUE ! Our updated boiler manuals are now online, and all WGO & WTGO boilers ship with a new boiler rating label identifying adjustment details.

This new capability now joins a host of existing Gold Oil advantages...

- ✓ **Cast Iron Sections with Captured Seals**
Proven durability & long life, with an innovative seal design allowing maximum contraction and expansion
- ✓ **Convertible Flue**
Provides venting flexibility, either out the top or back of the boiler - easy to match any current situation
- ✓ **Industry's First Combination Temperature Limit Control & Low Water Cut Off** (since 2008)
Makes installations easier, quicker and less expensive - already 2012 code compliant
- ✓ **Easy Flueway Inspection**
Removable cap provides quick visual inspection without taking apart the vent pipe
- ✓ **Quick Access for Cleaning**
Full swing-away burner door and wide top access to all flueways allows a fast & thorough cleaning
- ✓ **Multiple Burner Options**
Choice of Beckett, Carlin or Riello quality products
- ✓ **Easy to Install & Service**
Simple to understand & troubleshoot - saving contractors time
- ✓ **American Engineering & Craftsmanship at its Finest**
Attention to detail - no wonder we are North America's leading boiler manufacturer

When you add it all up, it makes our high quality Gold Oil boilers a hard value to beat!
