FROM: Mike Boyd – Product Marketing Manager

SUBJECT: UPDATE - AHRI Mandatory Rerate of Industry's Modulating Condensing Residential Boilers

Last November, the Air-conditioning, Heating, and Refrigeration Institute (AHRI) informed the industry of a required rating listing change in regards to the Department of Energy's (DOE) Annual Fuel Utilization Efficiency (AFUE) calculation for modulating condensing boilers under 300 MBH input. This required immediate action <u>by</u> <u>all manufacturers</u> of these boilers.

During the transition period in November and until the new ratings were published, all affected boilers were required to have their AFUE ratings either reduced to 90.0% or dropped completely. This also affected the efficiency listings in the AHRI directory.

Weil-McLain completed the required retesting of the Ultra Gas and WM97+ residential boilers. The new ratings are now listed in the AHRI directory, and are shown below.

Original Boiler Model	Original Part Numbers	New Boiler Model	New Part Numbers	New AFUE %	Same Great Trade Price
Ultra 80 UE	383-500-700	Ultra 80 CT	383-500-720	93.5	\$ 4,430
Ultra 80 LP UE	383-500-701	Ultra 80 LP CT	383-500-721	93.5	\$ 4,430
Ultra 105 UE	383-500-702	Ultra 105 CT	383-500-722	94.0	\$ 4,909
Ultra 155 UE	383-500-703	Ultra 155 CT	383-500-723	94.0	\$ 5,507
Ultra 230 UE	383-500-704	Ultra 230 CT	383-500-724	94.1	\$ 6,229
Ultra 299 UE	383-500-705	Ultra 299 CT	383-500-725	92.5	\$ 8,625
WM97+70	383-700-000	WM97+ 70 CT	383-700-003	95.2	\$ 3,920
WM97+110	383-700-001	WM97+110 CT	383-700-004	95.0	\$ 4,295
WM97+ 155	383-700-002	WM97+ 155 CT	383-700-005	95.1	\$ 5,025
Original Boiler	Original Part	New Boiler	New Part	Same	Same Great
Model	Number	Model	Number	Efficiency %	Trade Price
Ultra 399 UE	383-500-706	Ultra 399 CT	383-500-726	91.7*	\$ 9,730
*Units over 300MBH input are rated using steady state combustion and thermal efficiencies rather than AFUE					

Although the AFUE ratings are now lower, this is attributed to the new standard calculation that is used by all manufacturers. The construction and design of these boilers have not changed and can operate the same as the previous models. We have also taken this opportunity to ship them from the factory preconfigured at the highest turndown ratio.

Please note that these products will have a new model number extension (CT) and new boiler part numbers, which are listed above. We will ship our remaining stock of boilers, and then fill remaining orders using the new part numbers as the units become available.

We are now accepting orders for the new sales "CT" brochures, through our literature department.
