**New SlimFit Controls! Upgrade NOW!**  
**MB-1516 September 16, 2015**

Weil-McLain is pleased to announce an upgrade to controls for the SlimFit 550/750 at **no additional cost to our customers!**

We've kept the look and feel of the SlimFit controls simple and easy to use but backed it up with even smarter, more powerful programming. **SlimFit boilers with the updated controls are in stock and ready for immediate ordering and shipment.**

We're thrilled about this advancement in the Weil-McLain boiler line and excited to share some of the new SlimFit controls capabilities.

**SlimFit™**

**Rating of up to 94.7%  
Combustion Efficiency**

#### **Smart Controls features and benefits:**

- **Boiler to boiler communications** – up to 8 boilers cascading and lead/lag boiler rotation for equal run hours
- **Set up wizard** – guides the installer through the set up and start up process significantly saving time and making the installation much easier
- **Multiple preset systems** – 10 heating systems have been preset with typical operating conditions to speed up the installation process
- **Improved boiler communications** – Modbus® is now standard and BACnet® is optional for communications with the BAS (building automation systems)
- **0-10 VDC output signal** – allows for easy integration with other older or existing boilers to modulate their output in response to building heating system demand
- **Zone stacking** – up to 24 programmable zones can be controlled without the need for an additional external panel
- **Smart Sequencing** – improves the efficiency of the multiple boiler system by running the optimum number of boilers at their peak operating efficiencies

#### **Boiler models, part numbers and pricing (no price change)**

Part Number	Description	Trade Price
383-600-320	SlimFit Condensing Boiler SF550	\$15,397
383-600-321	SlimFit Condensing Boiler SF750	\$18,858
383-600-164	Controls Retrofit Kit	\$546

#### **Existing Boiler Controls Retrofit Kit**

We have developed a retrofit kit to assist customers who wish to upgrade their existing SlimFit boilers (SF550 and SF750) using the new controls' capabilities. The kit includes display, main controller, expansion board, wiring harness, RJ45 cable and instructions. The retrofit kit part number and the trade price are shown in the above table.

The following SlimFit literature has been updated and is available to download:
